ABSTRACT SUBMISSION

MEETING IN LISBON

On 29 January, the IPRA-CINDER team went to Lisbon to continue working on the Porto Congress. In the meeting were the ASCR and IRN as members of the Organizing Committee. The meeting was very useful and productive. We all keep on working.

BRIS

BRIS, Business Registers Interconnection Systems, is an initiative of the European Commission with the member States of the EU. It allows the electronic communication between Business Registers of EU members.

The project sets up the exchange of messages about foreign branches and cross-border mergers of companies. It also facilitates the consultation of citizens' registration information about any limited company, limited liability company and limited by shares or European registered in the Member States.
